Dallas College VPN Install for Windows

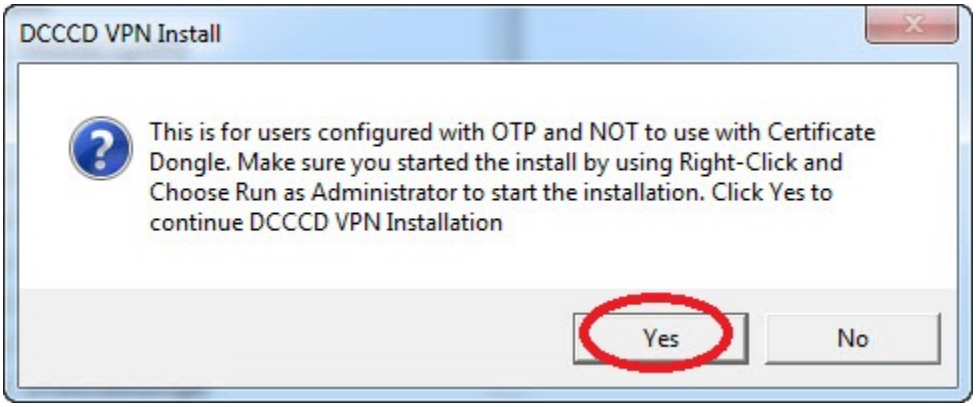

Download the installer file from http://netsupport.dcccd.edu/Download/VPNWinOTP/VPNWinOTP.zip to your local C drive. Browse to the installer file and Right-Click. Choose “Run as Administrator” as shown below.

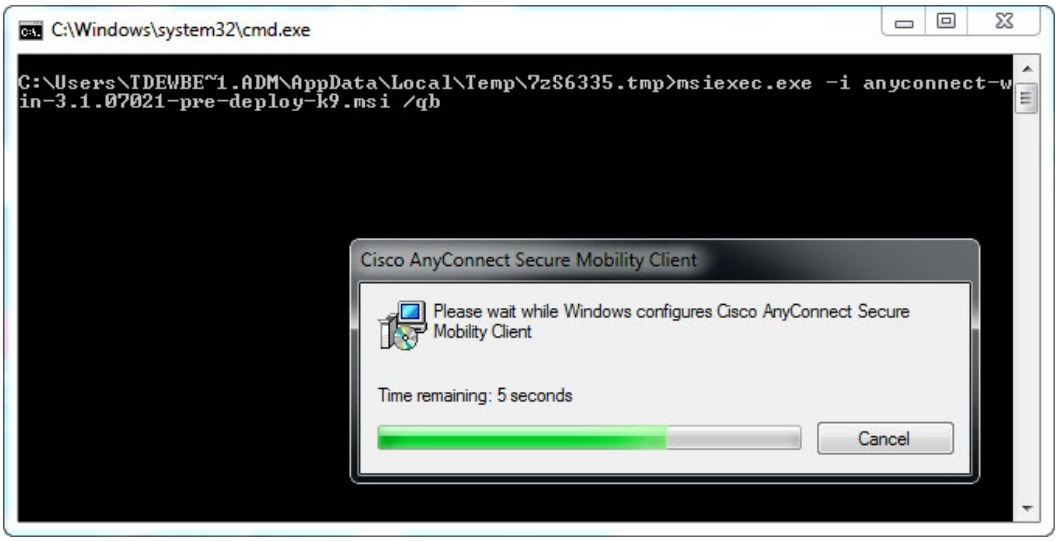

If you see the message from your UAC, click the “yes” button to continue.

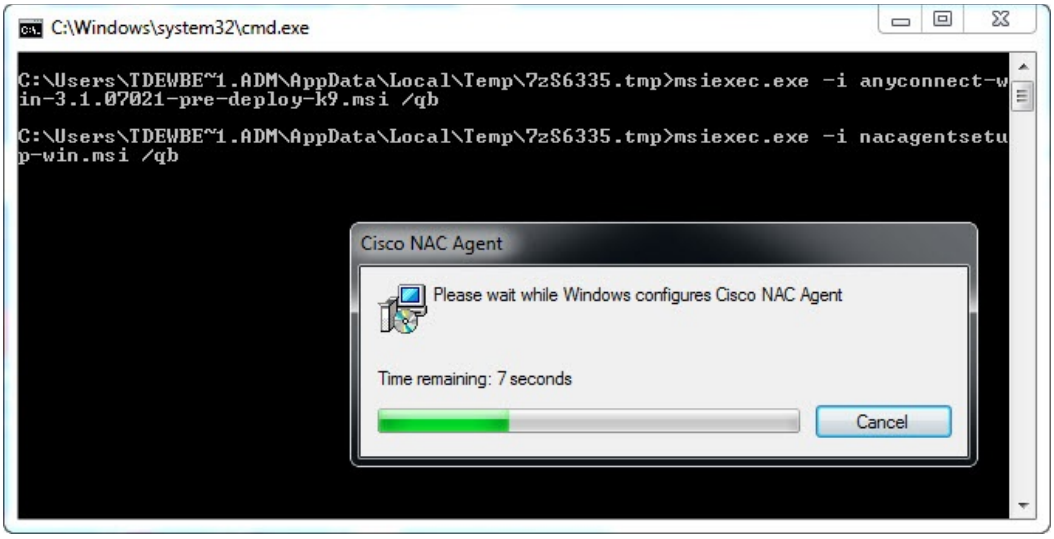

Click the “Yes” button to start the install.

You will see a series of programs being installed

When the install screens disappears, the installation is complete.
